FOR THE HOUSE OF DELEGATES,

William T. West. FOR SHERIFF, George W. Boulden. FOR COUNTY SURVEYOR,

> William T. Bye. THE REBEL YELL.

The Democrat continues to cheer and encourage the old rebel spirit rampant in 1860, and fan its expiring embers. Already those embers of hate are kindling into something like a blaze, and the old threats and bitter denunciations against all who uphold "the banner of the stars," are freely indulged in. These men who complain so loudly of oppression and wrong done to them by a wholesome restraint placed upon their actions during the dark hours of the country's sorest trial, seem to entirely overlook the guilty part they acted. Suppose they had been allowed to organize resistance to the government and make what diversion they pleased in favor of the rebel army and rebel control in this State, (which they certainly would have done had they not been withheld from so doing,) how long would it have been till riot and bloodshed would have reigned, and hundreds of the very men who are so ready now, when all is over, to blow the old sparks into flame again, would have met violent deaths, and been placed out of the way of disturbing the peace anew. They owe their lives to the very severity they complain of, for had they been allowed to precipitate strife and bloodshed, as they certainly would have done, they must know that, located as they were, with a strong, overwhelming union element around them, and the army between them and succor, that their doom would have been sealed. It would have been the hight of folly and madness for a legislature of Maryland to have assembled, hostile to the government and the army, and for these sympathizers to have been permitted to make demonstrations in favor of, and express, in a public manner, sympathy for Jeff Davis and the "Southern Confederacy so-called." No government while in a state of war, will permit open enemies to act within its lines against it.

The Union men of this country did not shrink from the fray in those days, nor will they turn out of their course to avoid it now, if the Doctor with his hot blood and old slave master bigotry succeeds in arousing the old rebel hate, which is rapidly dying out, and giving place to a better spirit and a better hope for the future of the State and county. The men who are so ready to join the Doctor in his cry to dig up the hatchet and hoist anew the Stars and Bars, did little else than heap execrations on the soldiers who went to meet and drive a blood thirsty, vindictive enemy back from our homes and firesides, and pray that the bones of those brave soldiers might whiten on the fields of the South. The war was not one of Union amounted to \$60.48, and for Inquisitions king. It was forced upon the nation by just such fire-cating, mischiefmaking politicians as the present Editor of The Democrat. It was fought out, however, to a successful issue, and the beginners of the strife vanquished beyond a per adventure. But again, after years have rolled by, a not more silly than wicked effort is being made through The Democrat to revive the old strife. If the sentiments put forth by that sheet in its recent issues are endorsed by the party and the ticket it professes to speak for, let us know it. The men of Cecil will not shrink from and look at the Registration Notices there-"rebel yell." If Greeleyism, and Conservatism, and all the new departures, and party, again take its stand on the old rebel platform and offer battle for the "lost cause," why be it so, and let us understand the question fairly. The Democrat pledges the party to the old issues, and old hates of the past which went down in blood on the battle field. Do the peaceful, the industrious, the enterprising people of Cecil feel like endorsing these principles promulgated recently by The Democrat, and supporting a ticket placed on such a platform? The eyes of the country are on you. By sustaining the party so long, though under a multitude of disguises, since of the hand one column would be required, if, (as might and should be done) the name of each Register, and the place of meeting in each District were inserted under one of these Notices.

This is only one instance of the kind of "retrenchment" promised by the Democratic Conservative party of Cecil in 1867, to the tax-payers whom they deceived into supporting them at that time, and by whose votes they have retained power since. though under a multitude of disguises, loss and depreciation has fallen heavily upon the business and property of the county; but the past is as nothing in comparison to what awaits us in the near future, if the hellish sentiments propocounted by dollars. The capitalist would gather up his property and flee as from the robber, and the stranger and man of enterprise would hasten to get beyond out borders. The miseries of some of the Southern States so groaned sur weekly by The Democrat prevailed in these States, and disgusted and drove away honest men of capital and enterprise, and the carpet baggers filled their places. It was the innate rottenness of the social and political element of the solid manufacture of the solid manufacture of the solid and political element of the solid rebell remains that brought the same inferror should repeat the same inferror should rebell remains that brought the same inferror should rebell remains that brought the same inferror should respect to the social and political element of the gated by The Democrat find endorsement by the voters at the coming election.—

ETE SALVE. Next week being the first week of the

eptember term of the Circuit Court, it may be of interest to our readers to study some of the items of expense which attend the sessions of our trinity Judicial System. Some months since it will be remembered, we gave the Judiciary of our State a prety thorough ventilation. We now propose o produce some of the minor details of that system in a familiar style that will that system in a familiar style that will perhaps, attract the attention of our readers, and induce them to study more carefully the Lovy Statements which are annually published. The long columns of figures, which, necessarially, financial statements are mostly composed of, constitute such dry reading that not one in ten care to study them, and much valuable information is, in consequence, lost for want of a little care and examination. The first item we take up will be that of Balliffs, Crier, etc., which figure conspicuously in Courts of Justice. In the Levy List of 1872 the following are set down as Bailiff expenses to the Circuit Court that year: expenses to the Circuit Court that year:

Total for Bailiff fees,

Within these 58 days of Court, that year there were tried 37 cases great and small, -the majority of them very small.

For Court Crier, the same year, the unty paid John E. Brown, Crier, 58 days, at \$4-\$233. The reader will perceive that the difference in the pay of these two offices is nearly double, but wherein more ability or labor is necessary to the one than the other, it will be difficult for any of our readers, who have attended Court, to comprehend. But this is no fault of the officers. They have no control of the pay attached to the offices. They are entirely innocent of any blame that may be attached to the system which continues such a stupendous folly of paying five Bailiffs to do what three used to perform, and a crior at & a day to do a useless piece of bawling from the Court House steps to inform the

people the Court is in session.

Before leaving this subject there is one more feature which we wish to point out. In former times, before the present party of "retrenchment and reform"(!) came into power, Constables from the country districts were appointed Bailiffs to the Court; but now the Bailiffs all live in Elkton, and are special tide waiters for the "Elkton Ring." Here are six Elkton attachees which the "Ring" have ever at complete cure. Not one of them could hold his position for an hour if he showed disaffection to the political interest of the "Elkton Ring."

In the Levy of the present year, 1873, the Bailiff fees amount to \$514.50; Crier of the Circuit Court \$31. A great many more of the political in the court of the circuit Court \$31. A great many more but that the government homesteads are Orphans' Court \$84. A great many more items of interest might be selected from these reports, but we will select a few from the Levy list of 1867 which was made under the last Republican Board of County
Commissioners. The outlay for Bailing tion, giving Prices Location, Products, Kind of Soil Climate, etc., and with the

services in that year's levy are \$399.40; Crier of Circuit Court \$79.73; Crier to Orphans' Court \$34. The expense for Coroner's juries in 1867 was \$82.80. In amounted to \$60.48, and for Inquisitions ner's juries \$152.98. DEMOCRATIC THRIFTLESSNESS.

Mr. EDITOR:-If your readers will turn to a copy of The Democrat of last week, the contest, or be frightened by the old in inserted, they will see how some of the hard earnings of the straightened taxpayers of the county are wasted in the pretences at reform and progress were but useless and senseless reiteration, nine disguises, to deceive the honest people, and times, of the provisions of the Registrathey are to be thrown off now, and the tion Act under which these Notices are published.

The publication of these Notices being continued four weeks, and occupying near-ity 2) columns each insertion, nearly ten-columns of matter are being paid for when but little more than one column would be

since.

If tax-payers wish some idea of how these little evidences of thriftlessness effect their pockets, let them look over the annual publications of the Levy List, and notice the increased item of printing, or advertising, as compared with yours, prior to 1867.

The Parker Breech Loader.

The Parker Breech Loader.

For many years there has been a difference of opinion among sportsmen as to the merits of breech loading shot guns. At the late convention in Utica, they were very thoroughly tested, and fow men can be found who, having used one from the hands of a reliable maker, do not give them the preference over muzzle loaders. The wonderful rapidity with which they can be loaded and fired, their freedom from the danger necessarily attending the use of the muzzle loader, their cleanliness, are points which will go far towards deciding any mind in their favor.

With two drams of Dupont's No. 2 grain powder, at the same distance, we have driven No. 6 shot through a target composed of forty thicknesses of heavy brown wrapping paper, 107 x 13 inches in size, the whole target weighing 21 ounces. The cartridge is made of metal, and can be leaded and used an unlimited number of times.

Having had one of the Parker Guns for a year, we have thoroughly tested its shooting qualities, and endorse every word of the above. They never miss fire, and never miss the mark if properly aimed.

Undeveloped Vigor.

The feeble and debilitated usually fancy they are in a more hopeless condition than they really are. The resources of nature are not easily exhausted. Even when strength and appetite fail, when the eyes are lastreless, the complexion pallid, the nerves trenulous the body attenuated, and the mind depressed, there is generally a reserve of latent power behind such palpa ble evidences of weakness. Various modes of treatment are resorted to by physicians in the hope of developing and rendering available this store of sleeping vitality, but the surest, and indeed the only thoroughly safe and reliable means of awakening the dormant energies of the system is a course of Hostetter's Stomach Bitters Electricity, shower baths, the flesh brush, sea bathing Ac, may be well enough in their way, as auxiliaries, but they do not reach the source of the evil. WILLIAM J. MURPHEY.

In the Circuit Court for Cecil county. In Chancery.
The object of the suit in the above entitled cause is to procure a decree "a rineale matrinomit" of the complainant from the defendant, William J. Murphey, and for the custody of their infant children.

The Bill alleges that the complainant and defendant were married on the 16th of March, 181; that the defendant abandonnel the complainant in the month of January, 186; that said abandonneth has continued uninterruptedly to the present time, and is deliberate and flual, and the separation of the parties beyond any reasonable expectation of reconciliation. That the said William J. Murphey is a non-resident; that he is unable to support or maintain her children. The Bill prays for divorce a vinculo matrinomi, and that the custody of their infant children may be decreed to her.

It is thereupon ordered, this 11th day of September, 1875, by the Court, that the complainant cause a copy of this Order, together with the object and substance of the Bill, to be inserted in some newspaper published in Eikton, Cecil county, Md., once a week for one month before the 16th day of October, next, giving notice to the defendant in said Bill, and warning him to appear in this Court, in person, or by solicitor, on or before the 1sth of January, 1874, to show cause, if any le has, why a decree should not pass as prayed.
